UMES FACES

On our remote campus in Princess Anne, these are some of the various faces you may see daily. Whether walking on the yard, in front of the "cafe", or watching a game in our new Athletic Facility, there is always a warm Hawk smile somewhere in the midst. In this yearbook you will see a compilation of our Hawk family and friends, highlighting events and activities from our school year. Some moments of triumph, events filled with laughter, and even those not so eventful moments, are all contained within these pages. All these can be seen on the many faces that make us who we are . . . UMES.

Check out those smiles.

What a Kodak moment.

The time has come for me to bid farewell to a fine University that I have called my home for four years. These four years have been defining moments of my life, and I will never forget them. I will remember how interacting with numerous faculty and staff has helped me to free myself from my shell, and emerge triumphantly as Jeffrey Carpenter Jr., Mr. University of Maryland Eastern Shore, 1998-1999. I will never lose the memories that the University of Maryland Eastern Shore has given me.

Upon becoming Mr. UMES, I thought to myself, what can you do to bring this position to a new level? After soul searching, I realized that my ability to take control of things, and make things happen, would be what I offer. This year has been one that offered me many opportunities to use these skills. I had so many dreams and aspirations for my reign, that I still want to accomplish, but unfortunately, I have run out of time.

To the Freshmen, take advantage of all that this University has to offer you, drain it for every bit of information and resource that it can provide. Sophomores, buckle down and start to realize what dreams you have for your life, and begin to focus on them. Your time to choose what you want is now. Juniors, you are on the verge of starting a new chapter in your life. Are you ready? Take the time you have left here and network, if you have not already. Learn what is available to you outside of the UMES campus.

Finally, to the Seniors, class of 1999, no one knows what the future holds for you because you hold your future in your hands. Run with it, establish yourself, make it happen. For now you are your own support, your rock. Make the most of your life and do what will make you happy. No regrets.

Finally, but not in the least bit forgotten, to the University of Maryland Eastern Shore, keep the door to a new beginning open wide, and keep evolving into a new and remarkable species. The black college is essential in the development and stability of our race, and it is the instructors, professors, deans, etc., are integral beams in the House that Pride built.

Touched forever by your existence,

Jeffrey Carpenter Jr.
Mr. UMES 1998-1999

Bidding farewell is so difficult to do especially when you love your job. As Miss University of Maryland Eastern Shore 1998-1999, I had two goals. My first goal was to promote scholastic achievement and talent. My second goal was to promote cultural diversity because of our growing global community. My goals could not have been accomplished if I did not have supportive administration, faculty, staff, student body, family, and friends. I truly believe that God has guided my path throughout my years at UMES, and through Him, all things are possible.

My challenge to everyone is to remember our values and from where you came. These are your roots to your foundation of life. Strive your hardest to achieve above and beyond. You are living your history, so live a success story. Always remember that great words of our alumnus Jesse Williams, "A dream without a plan is a fantasy. A plan without execution is a missed opportunity." And also listen to what Malcolm X once said, "Education is the key to success, for tomorrow belongs to those who prepare for it today." So please, while you are in this chapter of your life called "college plan", prepare, and execute so you will secure your future as the doers and shakers of tomorrow. **We are that which will make our alma mater, UMES, shine above the others.** To the Class of 1999, thank you for the memories, but while graduation marks the end of this chapter in our lives; it's really just the beginning. Remember . . . Think of the future as a wonderful door opening into a promising new land. Learn from the past; but do not let it determine your future. Forget about any mistakes. Be glad that you are living in a world that is so full of opportunity. Be optimistic. Appreciate the fact that you have God-given talents and abilities that are uniquely yours, and don't be afraid to use them. Be the best you can be. Seek the advice and help of others, but always remember that yours is the final word. Make your own decisions, explore your own self, and find your own dreams. Be persistent; try not to get discouraged when things don't go your way. Do all that you can to make this world a better place to live. Be aware that life isn't always easy, but with given time and hard work, it can be everything you want it to be. Most of all be happy! The future awaits you, and it's a wonderful time to be alive.

Again, I thank you all for affording me the opportunities to represent this illustrious University, and I hope that I served you well.

Love Always,

Michelle Amante Jefferson

ORGANIZATIONS

STUDENT GOVERNMENT ASSOCIATION

Dear HAWK Family:

To my fellow HAWKS, the time has come for us to leave UMES the place that has been our nest for the last four years. A lot has happened in all of our lives since we made our first step on this beautiful campus as freshmen in '95.' I know that whatever field we enter, UMES has prepared us to take the world by storm. We look within ourselves to find the things that we have learned during our stay here, and focus them towards accomplishing our hearts desire.

I take this time to say thank you to my HAWK Family and the people who made my year as President a success! First, I would like to thank God for giving me the opportunity to represent the student body and use my leadership skills to develop a better university for the students. Second, I would like to thank the Administration, faculty and staff for being my voice of reason in my decisions. I appreciate the opportunity to make final decision concerning the student body and knowing that I would have your full support and understanding. Third, I want to thank my SGA staff for the 1998-1999 academic year for all of their hard work and dedication. Without my caring staff, none of these things would have been possible.

Finally, I would like to give full thanks to University of Maryland Eastern Shore student body for electing and trusting me with the most important position, of being your voice for the university and aboard. Also, for giving me the opportunity to take your suggestions and make them reality. I feel this year has taught me a lot about being a leader and a decision-maker. Now that I have pass this learning experience to another dedicated leader, I hope and pray that "HAWK PRIDE" will never leave the hearts and souls of everyone that has or will be attending the University of Maryland Eastern Shore. And peace to the best and the last class of the century Class of 1999 "The best was saved for last."

Sincerely,

Kwasi Gyimah, Jr.
